## COLD STORAGE SOLUTIONS FOR MANY APPLICATIONS

Portable refrigeration units provide a great solution to a variety of industries such as breweries, florists, restaurants, food pantries, meat and seafood processors / distributors, fruit and vegetable growers, event catering and many other industries that may require cold storage space.

Container Cold Room Design on ISO Shipping Container. Once everything is ready just connect the power then in the control panel installed near the entrance door shows the temperature inside the cold room.

# INSULATED REFRIGERATED VEHICLE BODY BUILDERS

KENZ AL ARABIA Int. Co. lead the way in developing commercial, specialized and refrigerated vehicles and storage systems which are increasingly productive, safe, clean, easily operated, good looking and efficient. Innovative solutions make our refrigerated bodies extremely durable & sustainable. KENZ AL ARABIA Int. Co. refrigerated vehicles stand for low-cost operation, high resale values & recyclability.

## MAINTENANCE

we have a specialist who is dedicated to carrying out maintenance services of all categories. Some of the services for maintenance include refurbishment, repair, and temperature control. These maintenance services are carried out by our experts who are skilled and worked on complex projects. For instance, if you have a broken door, our team can help you repair them.

Maintenance services and applications  
Our maintenance service is all-encompassing. We also carry our preventive maintenance programs. This will ensure that your systems always work at optimal capacity without breaking down. Our maintenance services also include distribution centres, cold rooms, retail outlets warehousing and so on.

Below is a comprehensive list of our maintenance services:

- Repair and maintenance of Cold room compressors
- Cold room evaporators
- Repair and replacement of cold room doors
- Repair of tracks
- Maintenance of pressure valves
